DETAILED ACTION

The Amendment dated 3/25/2005 has been entered into the Record. Claims 1-78 have been canceled.

Election/Restrictions

Claim 79 is generic to a plurality of disclosed patentably distinct species comprising claims 79-102. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is directed to elect one (1) macrostructure and one (1) microstructure from instant claim 79 or the trimodal embodiment and their associated claims to be searched by Examiner. Applicant is also directed to cancel any redundant elected claims following the election of species. The groups available for search and their associated claims are as follows:

1. Macrostructure A and microstructure 1 claims: 79-81, 82 and 102
2. Macrostructure A and microstructure 2 claims: 79-81, 83 and 102
3. Macrostructure A and microstructure 3 claims: 79-81, 84 and 102
4. Macrostructure B and microstructure 1 claims: 79-81, 85 and 102
5. Macrostructure B and microstructure 2 claims: 79-81, 86 and 102
6. Macrostructure B and microstructure 3 claims: 79-81, 87, and 102

Art Unit: 1771

7. Macrostructure C and microstructure 1 claims: 79-81, 88 and 102

8. Macrostructure C and microstructure 2 claims: 79-81, 89 and 102

9. Macrostructure C and microstructure 3 claims: 79-81, 90 and 102

10. Macrostructure B claims: 79-81, 91-98 and 102

10. Trimodal embodiment claims: 99-101 and 102

No telephone call was placed due to the complexity of the restriction.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew D. Matzek whose telephone number is (571) 272-2423. The examiner can normally be reached on 8:30 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571) 272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
